### EU Energy efficiency information.

This scheme, which covers refrigerators, freezers, washing machines, tumble dryers, dishwashers and electric ovens is designed to offer consumers a standardised method of choosing the most energy efficient appliances. For refrigerators and freezers, as well as stating the energy efficiency class ('A' – most efficient, 'G' – least efficient) the label also gives the annual electricity consumption (i.e. running cost) and the usable storage capacity.

For washing machines the label also states the wash performance and spin efficiency. Three ratings are given to ensure energy efficiency combined with effective washing and drying.

For dishwashers the label states energy efficiency, washing and drying performance.

For electric ovens the label also states the energy consumption (in kWh) and the usable volume of the oven. If the oven is a double oven it will carry this information for both ovens.

appliance with low energy consumption

appliance with medium energy consumption

appliance with high energy consumption

Many products in the AEG-Electrolux range are 'A' rated and endorsed by the Energy Savings Trust with an energy efficiency recommendation. The award by this independent body is made only to the most energy efficient appliances on the market.

## CUSTOMER CARE.

### Responsive customer care/After sales service.

Once you've bought an AEG-Electrolux appliance you're safe in the knowledge that in the unlikely event of a fault occurring you can rely on our commitment to look after your appliance throughout its working life. Our network of fully trained service engineers are available nationwide and our complete care service is one of the most extensive and reliable available.

### 12 months parts and labour guarantee.

In the unlikely event of any repairs being required in the first year, we will carry them out free of charge. In addition, any repairs carried out after the guarantee period are covered by their own 12 months guarantee.

### Rapid service.

If you call us out under the 12 months guarantee, we endeavour to fix the appliance within seven working days of our first call.

### Customer care.
